Dear Sid,

In October of 2010 my wife Carrie and I pulled the trigger on a major kitchen and living room renovation for our home originally built in the 1970's. Without a doubt we made the right decision to remodel using Dorgan and Zuck.

The process was stressful, however exceeded our expectations in many ways. The renovation ran smoothly hitting virtually every milestone we had set. Our project manager, Scott, kept us abreast of the details each day. All the contractors and subcontractors were courteous, professional, and always left the house tidy.

Our Architect created superb instructions which kept the surprises to a minimum. We had lots of help with design ideas that stretched our creativity. In the end we put together the right combination of colors that produced just the right balance of light and space. The spacious design allows us to host guests comfortably without feeling confined.

The idea to remodel originated in the spring of 2008. Due to the uncertainty of the economy we postponed the decision several times. We used the additional time to visit locations to see multiple designs. Sid earned our trust by allowing us the room to deliberate our choice without feeling pressured.

Overall we are very happy with our project. We feel very proud to recommend Dorgan and Zuck to anyone who is serious about remodeling their home.
